ENSC 245 Soils with Lab	4	<input type="checkbox"/>
Advisor Approved Electives	6	<input type="checkbox"/>

TOTAL CREDITS 17

THE VALUE OF YOUR AGRICULTURAL TECHNOLOGY DEGREE

Montana State University-Northern's Agricultural Technology program offers courses that give students a comprehensive background in agricultural production and management. This ag school program is designed to work as an independent Associate of Applied Science (AAS) degree course as well as the first half of the Bachelor of Science (BS) in Agricultural Operations Technology.

Study agricultural technology in an MSU-N program that covers a range of agricultural sciences, business, and technology. Combine ag school classroom work with hands-on experience through cooperative education.

15 TO FINISH

WANT TO GRADUATE ON TIME? SAVE MONEY? GET BETTER GRADES?

15

You're going to need 15. That's the number of credits you need to take each semester to graduate on time. Sure, you can take less and still receive some scholarships and funding. But unless you take 15 credits a semester (or 30 a year), you're looking at an extra year or more in order to graduate. Know the courses you need to graduate, and meet with your advisor to map out a plan to earn your degree on time.
